<p>The exam course complex analysis covers the central topics in complex analysis with respect to their relevance for the Bavarian state examination for the teaching degree Gymnasium. A particular focus is given to interrelations with real analysis and geometry. The topics are supplemented and illustrated by selected examples and exercises from exams of previous years in varying degrees of difficulty.</p>		
Intended learning outcomes		
<p>The student for the teaching degree for German Gymnasium knows and understands the central concepts and the respective methods of proof in complex analysis and is able to apply them in different contexts. The course shows the level of difficulty in the Bavarian state examination.</p>
