| Partial differential equations and/or variational methods in the context of continuum mechanics.   |                          |   |
| <b>Intended learning outcomes</b>  |                          |   |
| The student masters the mathematical methods in mathematical continuum mechanics and knows about their main fields of application.   |                          |   |
