<b>Contents</b>		
Advanced models, approaches and methods of machine learning. Methods of data preparation, generation and augmentation. In-depth knowledge of complex algorithms and models of machine learning as well as their implementation and best practices will be taught.		
<b>Intended learning outcomes</b>		
Students possess the theoretical knowledge of advanced methods and models of machine learning. They are able to put complex methods into practice to solve problems in the field of machine learning.		
<b>Courses</b> (type, number of weekly contact hours, language – if other than German)		
V (2) + Ü (2) Module taught in: English		
<b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)
