Study title: Mathematical Physics

Module title: Study Group Mathematical Physics

Abbreviation: 11-AG-MPH-122-m01

Module coordinator: Chairperson of examination committee, Mathematische Physik (Mathematical Physics)

Module offered by: Faculty of Physics and Astronomy

ECTS: 10

Method of grading: Numerical grade --

Duration: 1 semester

Module level: Graduate

Other prerequisites: Certain prerequisites must be met to qualify for admission to assessment. The lecturer will inform students about the respective details at the beginning of the course. Registration for the course will be considered a declaration of will to seek admission to assessment. If students have obtained the qualification for admission to assessment over the course of the semester, the lecturer will put their registration for assessment into effect. Students who meet all prerequisites will be admitted to assessment in the current or in the subsequent semester. For assessment at a later date, students will have to obtain the qualification for admission to assessment anew.

Contents:
Introduction to current questions of Mathematical Physics as a preparation for a Master’s thesis in this research area. Summary of the required fundamental topics in a seminar presentation.

Intended learning outcomes:
The students have advanced knowledge of Mathematical Physics and have gained insights into current research topics. They are able to summarise their knowledge in an oral presentation.

Courses:
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment:
talk with discussion (approx. 30 to 45 minutes)
Assessment offered: When and how often assessment will be offered depends on the method of assessment and will be announced in due form under observance of Section 32 Subsection 3 ASPO (general academic and examination regulations) 2009.
Language of assessment: German, English

Allocation of places:
--

Additional information:
--

Referred to in LPO I: (examination regulations for teaching-degree programmes)
