

Module description

Module title					Abbreviation
Study Group Statistical Mechanics					11-AG-STM-161-m01
Module coordinator				Module offered by	
chairperson of examination committee				Faculty of Physics and Astronomy	
ECTS	Meth	od of grading	Only after succ. compl. of module(s)		
10 numerical grade		rical grade	<u> -</u>		
Duration Module level		Module level	Other prerequisites		
1 semester		graduate			
Contents					
Introduction to current questions of statistical mechanics as a preparation for a Master's thesis in this area. Summary of the required fundamental topics in a seminar presentation.					
Intended learning outcomes					
The students have advanced knowledge of statistical mechanics and have gained insights into current research topics. They are able to summarise their knowledge in an oral presentation.					
Courses (type, number of weekly contact hours, language — if other than German)					
S (4) Module taught in: German or English					
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)					
talk (60 to 120 minutes) Assessment offered: In the semester in which the course is offered and in the subsequent semester Language of assessment: German and/or English					
Allocation of places					
Additional information					
Workload					
300 h					
Teaching cycle					
<u></u>					
Referred to in LPO I (examination regulations for teaching-degree programmes)					
					
Module appears in					
Master's degree (1 major) Mathematical Physics (2016)					

JMU Würzburg • generated 20.10.2023 • Module data record 124105
