### Contents

Mostly independent processing of an experimental, theoretical or engineering task in the field of nanostructure technology, especially according to known procedures and scientific aspects; writing of the Bachelor’s thesis.

### Intended learning outcomes

The students are able to independently work on an experimental, theoretical and engineering task from nanostructure technology under the guidance of a supervisor, especially in accordance with known methods and scientific aspects and to summarise their results in a final paper.

### Courses

(no courses assigned)

### Method of assessment

written thesis (approx. 25 pages)

### Allocation of places

--

### Additional information

--

### Referred to in LPO I

( examination regulations for teaching-degree programmes)

--

### Module appears in

- Bachelor' degree (1 major) Nanostructure Technology (2010)
- Bachelor' degree (1 major) Nanostructure Technology (2012)
- Bachelor' degree (1 major) Nanostructure Technology (2008)
- Bachelor' degree (1 major) Nanostructure Technology (2007)
