Module title: Models Beyond the Standard Model of Elementary Particle Physics
Abbreviation: 11-BSM-Int-201-m01

Module coordinator: Managing Director of the Institute of Theoretical Physics and Astrophysics
Module offered by: Faculty of Physics and Astronomy

ECTS: 6
Method of grading: numerical grade
Only after succ. compl. of module(s): --

Duration: 1 semester
Module level: graduate
Other prerequisites: --

Contents:
1. Basics of the Standard Model of Particle Physics
2. Tests of the Standard Model in Low Energy Experiments and at High Energy Colliders
3. Neutrino Physics
4. Higgs Physics

A selection of topics from the following fields will be covered:
- Phenomenology of Experiments at the LHC
- Particle Cosmology
- Extended Gauge Theories
- Models with Extended Higgs Sectors
- Supersymmetry
- Models with Extra Dimension of Space-Time

Intended learning outcomes:
Familiarity with tests of the standard model and their limitations. Knowledge in the description of elementary particle phenomenology, in particular Higgs and neutrino physics. Ability to construct extensions of the standard model and understand how to test these extensions in low energy experiments, at high energy colliders and in cosmology.

Courses (type, number of weekly contact hours, language — if other than German):
V (3) + R (1)
Module taught in: English

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus):
a) written examination (approx. 90 to 120 minutes)
b) oral examination of one candidate each (approx. 30 minutes)
c) oral examination in groups (groups of 2, approx. 30 minutes per candidate)
d) project report (approx. 8 to 10 pages)
e) presentation/talk (approx. 30 minutes).

If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date at the latest.
Language of assessment: English
Assessment offered: In the semester in which the course is offered and in the subsequent semester

Allocation of places: --
