Duration Module level Other prerequisites 1 semester undergraduate Approval from examination committee required. Contents	
1 semester undergraduate Approval from examination committee required. Contents	
Contents	
Current topics of Experimental Physics. Accredited academic achievements, e.g. in case of change of	
or study abroad.	university
Intended learning outcomes	
The students have advanced competencies corresponding to the requirements of a module of Experin sics of the Bachelor's programme. They have knowledge of a current subdiscipline of Experimental Ph understand the measuring and/or evaluation methods necessary to acquire this knowledge. They are classify the subject-specific contexts and know the application areas.	ysics and
Courses (type, number of weekly contact hours, language — if other than German)	
V (3) + R (1)	
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information module is creditable for bonus)	n on whether
written examination (approx. 90 to 120 minutes) or oral examination of one candidate each (approx. 30 or oral examination in groups (groups of 2, approx. 30 minutes per candidate) or project report (appropages) or presentation/talk (approx. 30 minutes). If a written examination was chosen as method of assessment, this may be changed and assessment stead take the form of an oral examination of one candidate each or an oral examination in groups. If of assessment is changed, the lecturer must inform students about this by four weeks prior to the origination date at the latest. Language of assessment: German and/or English	x. 8 to 10 may in- the methoc
Allocation of places	
Additional information	
Workload	
180 h	
Teaching cycle	
Referred to in LPO I (examination regulations for teaching-degree programmes)
