Duration | Module level | Other prerequisites
1 semester | graduate | Approval from examination committee required.

Contents
Non-technical minor. Crediting for academic achievements, e.g. from university change or study abroad

Intended learning outcomes
The students have advanced competencies on the Master’s level which correspond to the requirements of a module in the field of a non-physical minor (mathematics, chemistry, informatics...).

Courses (type, number of weekly contact hours, language — if other than German)

| V (3) + R (1) |

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (approx. 90 to 120 minutes) or b) oral examination of one candidate each (approx. 30 minutes) or c) oral examination in groups (groups of 2, approx. 30 minutes per candidate) or d) project report (approx. 8 to 10 pages) or e) presentation/talk (approx. 30 minutes).

If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date at the latest.

Language of assessment: German and/or English
