### Module title
Current Topics of Theoretical Physics

### Abbreviation
11-EXT8-161-m01

### Module coordinator
Chairperson of examination committee

### Module offered by
Faculty of Physics and Astronomy

### ECTS
8

### Method of grading
Numerical grade

### Other prerequisites
Approval from examination committee required.

### Duration
1 semester

### Module level
Graduate

### Contents
Current topics in Theoretical Physics. Credited academic achievements, e.g. in case of change of university or study abroad.

### Intended learning outcomes
The students have advanced competencies corresponding to the requirements of a module of Theoretical Physics of the Master's programme. They have advanced special knowledge of a subdiscipline of Theoretical Physics and have mastered the required methods. They are able to apply the acquired methods to current problems of Theoretical Physics.

### Courses
(type, number of weekly contact hours, language — if other than German)

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

- a) written examination (approx. 90 to 120 minutes) 
- b) oral examination of one candidate each (approx. 30 minutes) 
- c) oral examination in groups (groups of 2, approx. 30 minutes per candidate) 
- d) project report (approx. 8 to 10 pages) 
- e) presentation/talk (approx. 30 minutes)

If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date at the latest.

Language of assessment: German and/or English

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)
