### Module title

**Nontechnical Special Topics**

### Abbreviation

11-EXZ5-Int-201-m01

### Module coordinator

Chairperson of examination committee

### Module offered by

Faculty of Physics and Astronomy

### ECTS

5

### Method of grading

Numerical grade

### Only after succ. compl. of module(s)

--

### Duration

1 semester

### Module level

Graduate

### Other prerequisites

Approval from examination committee required.

### Contents

Additional qualifications for engineers. Credited academic achievements, e.g. in case of change of university or study abroad.

### Intended learning outcomes

The student possesses advanced knowledge meeting the requirements of a module on Master's level in the study program Nanostructure Technology. He/She commands knowledge qualifying him/her for a job in industry respective industrial research and development.

### Courses

- **V (2) + R (2)**
  - Module taught in: English

### Method of assessment

- **a)** written examination (approx. 90 to 120 minutes)
- **b)** oral examination of one candidate each (approx. 30 minutes)
- **c)** oral examination in groups (groups of 2, approx. 30 minutes per candidate)
- **d)** project report (approx. 8 to 10 pages)
- **e)** presentation/talk (approx. 30 minutes)

If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date.

Language of assessment: English

### Allocation of places

--

### Additional information

--

### Referred to in LPO I

(examination regulations for teaching-degree programmes)

--

### Module appears in

- Master's degree (1 major) Quantum Engineering (2020)
