### Module title

**FOKUS Research Module Biophysics - Laboratory and Measurement Technology**

### Abbreviation

11-FM-LMB-092-m01

### Module coordinator

Chairperson of examination committee

### Module offered by

Faculty of Physics and Astronomy

### ECTS

10

### Method of grading

Numerical grade

### Only after succ. compl. of module(s)

Module coordinator

### Duration

1 semester

### Module level

Graduate

### Other prerequisites

None

### Contents

Specific and advanced knowledge of independent scientific work in a current research area, especially in the specialist field of Biophysics - laboratory - metrology, reproduction of knowledge, acquisition of social and methodological competencies.

### Intended learning outcomes

The students have special and advanced knowledge of independent scientific work in a current research area, especially in the field of Biophysics and laboratory and measuring techniques, and are able to reproduce the acquired knowledge, to apply the acquired methods and to summarise a sub-area of the current research area in an oral presentation.

### Courses

- **Labor- und Messtechnik in der Biophysik (Laboratory and Measurement Technology in Biophysics):** V (3 weekly contact hours) + Ü/P (1 weekly contact hour), German or English, once a year (summer semester)
- **Kompaktseminar Biophysik - Labor- und Messtechnik (Block Taught Seminar Biophysics - Laboratory and Measurement Technology):** S (2 weekly contact hours), German or English, details on availability to be announced (block taught seminar (3 days), usually held during semester break)

### Method of assessment

This module has the following assessment components

1. Topics covered in lectures and exercises: written examination (approx. 90 minutes) or talk (approx. 30 minutes) or oral examination of one candidate each or oral examination in groups (approx. 30 minutes) or project report (approx. 8 pages)
2. Seminar: talk (approx. 30 to 45 minutes)

Assessment components 1 and 2 will be offered in German or English.

Students must register for assessment components 1 and 2 online (details to be announced).

Assessment component 1 will be offered once a year in the summer semester; details on when assessment component 2 will be offered to be announced.

To pass this module, students must pass both assessment component 1 and assessment component 2.

### Allocation of places

---

### Additional information

---

### Referred to in LPO I

(examination regulations for teaching-degree programmes)

---

### Module appears in

- Master's degree (1 major) FOKUS Physics (2010)
- Master's degree (1 major) FOKUS Physics (2011)
