Module title
FOKUS Project Practical Course Nanostructuring Technology

Module coordinator
Chairperson of examination committee

Module offered by
Faculty of Physics and Astronomy

ECTS
10

Method of grading
Numerical grade

Duration
1 semester

Module level
Graduate

Other prerequisites
--

Contents
Independent work on a current research topic of nanostructure technology and implementation of scientific experiments including analysis and documentation of the results.

Intended learning outcomes
The students are able to independently work on a current research area of nanostructure technology, to conduct and analyse scientific experiments and to document the results.

Courses
P (no information on SWS (weekly contact hours) and course language available)

Method of assessment
A) project report (approx. 20 pages) and b) talk (approx. 30 minutes) with discussion on topic researched in project

Allocation of places
--

Additional information
--

Referred to in LPO I (examination regulations for teaching-degree programmes)
--

Module appears in
