## Module title
Advanced Seminar Nanostructure Technology

### Abbreviation
11-HSN-122-m01

### Module coordinator
Managing Directors of the Institute of Applied Physics and the Institute of Theoretical Physics and Astrophysics

### Module offered by
Faculty of Physics and Astronomy

### ECTS
4

### Method of grading
Numerical grade

### Only after succ. compl. of module(s)
--

### Duration
1 semester

### Module level
Undergraduate

### Other prerequisites
Admission prerequisite to assessment: regular attendance and successful preparation of seminar presentation. Certain prerequisites must be met to qualify for admission to assessment. The lecturer will inform students about the respective details at the beginning of the course. Registration for the course will be considered a declaration of will to seek admission to assessment. If students have obtained the qualification for admission to assessment over the course of the semester, the lecturer will put their registration for assessment into effect. Students who meet all prerequisites will be admitted to assessment in the current or in the subsequent semester. For assessment at a later date, students will have to obtain the qualification for admission to assessment anew.

### Contents
Current issues in advanced topics of nanostructure technology...

### Intended learning outcomes
The students have in-depth knowledge of a specialist field of advanced nanostructure technology. They are able to independently acquire this knowledge and to summarise it in an oral presentation.

### Courses
S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
Talk (approx. 30 to 45 minutes) with discussion
Language of assessment: German or English

## Allocation of places
--

## Additional information
--

## Referred to in LPO I
(Examination regulations for teaching-degree programmes)

--

### Module appears in
Bachelor’s degree (1 major) Nanostructure Technology (2012)
