

Module description

Module title					Abbreviation	
Advanced Seminar Nanostructure Technology 11-HS					11-HSN-122-m01	
Module coordinator				Module offered by		
Managing Directors of the Institute of Apthe Institute of Theoretical Physics and A				Faculty of Physics a	and Astronomy	
ECTS	Method of grading Only after succ.		Only after succ. con	ompl. of module(s)		
4	nume	rical grade				
Duration		Module level	Other prerequisites			
1 semester		undergraduate	Admission prerequisite to assessment: regular attendance and successful preparation of seminar presentation. Certain prerequisites must be met to qualify for admission to assessment. The lecturer will inform students about the respective details at the beginning of the course. Registration for the course will be considered a declaration of will to seek admission to assessment. If students have obtained the qualification for admission to assessment over the course of the semester, the lecturer will put their registration for assessment into effect. Students who meet all prerequisites will be admitted to assessment in the current or in the subsequent semester. For assessment at a later date, students will have to obtain the qualification for admission to assessment anew.			
Contents						
Current issues in advanced topics of nanostructure zechnology						
Intended learning outcomes						
The students have in-depth knowledge of a specialist field of advanced nanostructure technology. They are able to independently acquire this knowledge and to summarise it in an oral presentation.						
Courses (type, number of weekly contact hours, language — if other than German)						
S (no information on SWS (weekly contact hours) and course language available)						
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)						
talk (approx. 30 to 45 minutes) with discussion Language of assessment: German or English						
Allocation of places						
Additional information						
Workload						
Teaching cycle						
Referred to in LPO I (examination regulations for teaching-degree programmes)						
Module appears in						
Bachelor' degree (1 major) Nanostructure Technology (2012)
