

Module title		Abbreviation
Theoretical Physics 1 for Pre Service Teachers		11-L-T1-172-m01
Module coordinator		Module offered by
Managing Director of the Institute of Theoretical Physics and Astrophysics		Faculty of Physics and Astronomy
ECTS	Method of grading	Only after succ. compl. of module(s)
7	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
<p>Basic physical laws and elementary methods of theoretical physics.</p> <p>Mechanics: Newton's laws Physical quantities and conservation laws, systems of mass points, reference systems, dimensional motion, Lagrange equations, applications, Hamiltonian dynamics.</p> <p>Quantum Mechanics: Schrödinger equation, one-dimensional quantum mechanics, quantum mechanics Abstract (operator formalism), angular momentum, spin.</p> <p>Electrodynamics: Maxwell equations, electrostatics, magnetostatics, dynamic electromagnetic fields, Special Theory of Relativity.</p> <p>Thermodynamics: Heat, entropy, thermal equilibrium, measured variables, efficiency, Thermodynamic potentials, phase transitions.</p>		
Intended learning outcomes		
Students have an understanding of the fundamental laws of the interrelationships and elementary methods of theoretical physics from the theoretical mechanics, quantum mechanics, thermodynamics, electrodynamics and statistical physics. They can use the acquired theoretical concepts and fit into larger physical context and discuss.		
Courses (type, number of weekly contact hours, language — if other than German)		
V (4) + Ü (2) Module taught in: Ü: German or English		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
written examination (approx. 120 minutes) Language of assessment: German and/or English creditable for bonus		
Allocation of places
