Module title | Theoretical Physics 2 for Pre Service Teachers - Exercises
--- | ---
Abbreviation | 11-L-T2:161-m01

Module coordinator | Managing Director of the Institute of Theoretical Physics and Astrophysics
Module offered by | Faculty of Physics and Astronomy

| ECTS | 7 |
| Method of grading | numerical grade |
| Only after succ. compl. of module(s) | -- |

Duration | 1 semester
Module level | undergraduate

Other prerequisites | Admission prerequisite to assessment: completion of exercises (approx. 13 exercise sheets per semester). Students who successfully completed approx. 50% of exercises will qualify for admission to assessment. The lecturer will inform students about the respective details at the beginning of the semester.

Contents
Exercises in theoretical mechanics, quantum mechanics, Statistical Physics, thermodynamics and electrodynamics. Among others: Newton’s laws, physical quantities and conservation laws, systems of mass points, reference systems, one-dimensional motion, Lagrange equations, applications, Hamiltonian dynamics; Schrödinger equation, one-dimensional quantum mechanics, abstract quantum mechanics (operator formalism), angular momentum, spin, Maxwell equations, electrostatics, magnetostatics, dynamic electromagnetic fields, special theory of relativity; heat, entropy, thermal equilibrium, measured variables, efficiency, thermodynamic potentials, phase transitions

Intended learning outcomes
The students are able to independently apply the methods of Theoretical Physics to the solution of problems of theoretical mechanics, quantum mechanics, thermodynamics, electrodynamics and Statistical Physics and to interpret the solutions.

Courses (type, number of weekly contact hours, language — if other than German)
V (4) + Ü (2)
Module taught in: Ü: German or English

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
oral examination of one candidate each (approx. 30 minutes)
Assessment will have reference to the contents of modules 11-L-T1 and 11-L-T2.
Language of assessment: German and/or English

Allocation of places
--

Additional information
Registration: If a student registers for the exercises or the seminar and obtains the qualification for admission to assessment, this will be considered a declaration of will to seek admission to assessment pursuant to Section 20 Subsection 3 Sentence 4 ASPO (general academic and examination regulations). If the module coordinators subsequently find that the student has obtained the qualification for admission to assessment, they will put the student’s registration for assessment into effect. Only those students that meet the respective prerequisites can successfully register for an assessment. Students who did not register for an assessment or whose registration for an assessment was not put into effect will not be admitted to the respective assessment. If a student takes an assessment to which he/she has not been admitted, the grade achieved in this assessment will not be considered.

Referred to in LPO I (examination regulations for teaching-degree programmes)
