### Contents

Mostly independent processing of a task in the field of Mathematical Physics, especially according to known procedures and scientific aspects; writing of the thesis.

### Intended learning outcomes

The students are able to independently work on a task from Mathematical Physics, especially according to known methods and scientific aspects and to summarise their results in a final paper.

### Courses

No courses assigned to module

### Method of assessment

Master’s thesis (750 to 900 hours total)
Registration and assignment of topic in consultation with supervisor.
Language of assessment: German and/or English

### Allocation of places

--

### Additional information

--

### Referred to in LPO I

(examination regulations for teaching-degree programmes)

--

### Module appears in

Master’s degree (1 major) Mathematical Physics (2016)
