### Module title
Master Thesis Mathematical Physics

### Abbreviation
11-MA-MP-161-m01

### Module coordinator
chairperson of examination committee

### Module offered by
Faculty of Physics and Astronomy

### ECTS
30

### Method of grading
numerical grade

### Only after succ. compl. of module(s)
--

### Duration
graduate

### Module level
The supervisor may make the successful completion of certain modules that are relevant for the respective topic a prerequisite for the assignment of the topic.

### Other prerequisites

### Contents
Mostly independent processing of a task in the field of Mathematical Physics, especially according to known procedures and scientific aspects; writing of the thesis.

### Intended learning outcomes
The students are able to independently work on a task from Mathematical Physics, especially according to known methods and scientific aspects and to summarise their results in a final paper.

### Courses
No courses assigned to module

### Method of assessment
Master's thesis (750 to 900 hours total)
Registration and assignment of topic in consultation with supervisor.
Language of assessment: German and/or English

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)
--

### Module appears in
Master's degree (1 major) Mathematical Physics (2016)
