## Module title
Master Thesis Nanostructure Technology

## Abbreviation
11-MA-N-072-m01

### Module coordinator
chairperson of examination committee

### Module offered by
Faculty of Physics and Astronomy

### ECTS
30

### Method of grading
numerical grade

### Only after succ. compl. of module(s)
--

### Duration
1 semester

### Module level
graduate

### Other prerequisites
Registration for assessment to be carried out electronically. Deadlines will be announced separately. Please consult with your supervisor.

### Contents
Mostly independent processing of an experimental, theoretical or engineering task in the field of nanostructure technology, especially according to known procedures and scientific aspects; writing of the thesis.

### Intended learning outcomes
The students are able to independently work on an experimental, theoretical and engineering task from nanostructure technology, especially in accordance with known methods and scientific aspects and to summarise their results in a final paper.

### Courses
no courses assigned

### Method of assessment
written thesis (approx. 75 pages)

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)

### Module appears in
Master's degree (1 major) Nanostructure Technology (2010)
