Module title: Master Thesis Nanostructure Technology

Abbreviation: 11-MA-N-161-m01

Module coordinator: chairperson of examination committee

Module offered by: Faculty of Physics and Astronomy

ECTS: 30
Method of grading: numerical grade

Duration: graduate

Contents:
Mostly independent processing of an experimental, theoretical or engineering task in the field of nanostructure technology, especially according to known procedures and scientific aspects; writing of the thesis.

Intended Learning Outcomes:
The students are able to independently work on an experimental, theoretical and engineering task from nanostructure technology, especially in accordance with known methods and scientific aspects and to summarise their results in a final paper.

Courses:
No courses assigned to module

Method of assessment:
Master's thesis (750 to 900 hours total)
Language of assessment: German and/or English

Allocation of places:

Additional information:

Referred to in LPO I:
(examination regulations for teaching-degree programmes)

Module appears in:
Master's degree (1 major) Nanostructure Technology (2016)
