## Module title

**Master Thesis FOKUS Nanostructuring Technology**

### Abbreviation

11-MA-NF-072-m01

## Module coordinator

chairperson of examination committee

## Module offered by

Faculty of Physics and Astronomy

## ECTS

30

## Method of grading

numerical grade

## Only after succ. compl. of module(s)

--

## Duration

1 semester

## Module level

graduate

## Other prerequisites

Registration for assessment to be carried out electronically. Deadlines will be announced separately. Please consult with your supervisor.

## Contents

Mostly independent processing of an experimental, theoretical or engineering task in a current research area of nanostructure technology, especially according to known procedures and scientific aspects; writing of the thesis.

## Intended learning outcomes

The students are able to independently work on an experimental, theoretical and engineering task from the current research on nanostructure technology, especially in accordance with known methods and scientific aspects and to summarise their results in a final paper.

## Courses

No courses assigned

## Method of assessment

Written thesis (approx. 75 pages)

Language of assessment: German or English

## Allocation of places

--

## Additional information

--

## Referred to in LPO I

(examination regulations for teaching-degree programmes)

--

## Module appears in

Master's degree (1 major) FOKUS Physics - Nanostructuring Technology (2010)

Master's degree (1 major) FOKUS Physics - Nanostructuring Technology (2006)
