

## Module description

Module title					Abbreviation	
Magnetism and Spin Fluids					11-MSF-161-m01	
Module coordinator				Module offered by		
Managing Director of the Institute of Theoretical Physics and Astrophysics			heoretical Physics	Faculty of Physics and Astronomy		
ECTS	Meth	od of grading	Only after succ. compl. of module(s)			
6	nume	rical grade				
Duration		Module level	Other prerequisites			
1 semester		graduate				
Contents						

#### Contents

The contents of the course vary from year to year and include topics such as spin-wave theory, spin-chains, spin ladders and spin liquids with topological orders. Depending on the lecturer, the focus may lie on magnetically ordered systems or on spin liquids.

Possible topics are:

- 1. Principles of magnetism. Ferromagnetic and antiferromagnetic exchange, super-exchange, Hubbard, t-j- and Heisenberg models
- 2. Magnetic order (Holstein-Primakoff bosons and spin-wave theory)
- 3. Valence bond solids in spin chains (Majumdar-Gosh and AKLT Models, spinon confinement and the Haldane gap)
- 4. Critical spin-1/2 chains (spinon excitations in the Haldane-Shastry model, holon excitations in the Kuramo-to-Yokohama model)
- 5. Coupled spin chains and ladders
- 6. Chiral spin liquids (Abelian and possibly non-Abelian)
- 7. Kitaev's toric code model (spinon and vison excitations)
- 8. Kitaev's honeycomb lattice model (non-Abelian statistics).

#### **Intended learning outcomes**

The students develop an understanding of the electronic origins of magnetism, spin-wave theory, spin-charge separation in one dimensional systems and spin-liquids as examples of systems with a topological order in two dimensions.

**Courses** (type, number of weekly contact hours, language — if other than German)

V(3) + R(1)

Module taught in: German or English

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

written examination (approx. 90 to 120 minutes) or oral examination of one candidate each (approx. 30 minutes) or oral examination in groups (groups of 2, approx. 30 minutes per candidate) or project report (approx. 8 to 10 pages) or presentation/talk (approx. 30 minutes).

If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date at the latest.

Assessment offered: In the semester in which the course is offered and in the subsequent semester Language of assessment: German and/or English

nguage of assessment: German and/or English		
Allocation of places
