

| Module title   |                   | Abbreviation                         |
|--|-------------------|--------------------------------------|
| Nanomatrix Semiconductor Processing  |                   | 11-NM-HP-072-m01                     |
| Module coordinator   |                   | Module offered by                    |
| Managing Director of the Institute of Applied Physics  |                   | Faculty of Physics and Astronomy     |
| ECTS   | Method of grading | Only after succ. compl. of module(s) |
| 6  | numerical grade   | --                                   |
| Duration   | Module level      | Other prerequisites                  |
| 1 semester   | undergraduate     | --                                   |
| Contents   |                   |                                      |
| Principles and specific knowledge of engineering work in the application fields of energy engineering, electronics, photonics and biophysics as well as in the technology-oriented materials sciences, technologies of nanostructuring, components and system development, especially in the field of semiconductor processes. |                   |                                      |
| Intended learning outcomes   |                   |                                      |
| The students have advanced knowledge of one or more application or technology areas of engineering work, especially in the field of semiconductor processes.   |                   |                                      |
| Courses (type, number of weekly contact hours, language — if other than German)  |                   |                                      |
| V + R (no information on SWS (weekly contact hours) and course language available)   |                   |                                      |
| Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)  |                   |                                      |
| a) written examination (approx. 90 minutes) or b) talk (approx. 30 minutes) or c) oral examination of one candidate each or oral examination in groups (approx. 30 minutes) or d) project report (approx. 10 pages)  |                   |                                      |
| Allocation of places   |                   |                                      |
| --   |                   |                                      |
| Additional information   |                   |                                      |
| --   |                   |                                      |
| Workload   |                   |                                      |
| --   |                   |                                      |
| Teaching cycle   |                   |                                      |
| --   |                   |                                      |
| Referred to in LPO I (examination regulations for teaching-degree programmes)  |                   |                                      |
| --   |                   |                                      |
| Module appears in  |                   |                                      |
