Module title					Abbreviation	
Measurements and Data Analysis 11-P-FR-122-mo1						
Module coordinator				Module offered by		
Managing Director of the Institute of Applied Physics			oplied Physics	Faculty of Physics and Astronomy		
ECTS	Metho	od of grading	Only after succ. con	mpl. of module(s)		
2	2 (not) successfully completed					
Duration		Module level	Other prerequisites	Other prerequisites		
1 semester		undergraduate	Certain prerequisites must be met to qualify for admission to assessment. The lecturer will inform students about the respective details at the beginning of the course. Registration for the course will be considered a declaration of will to seek admission to assessment. If students have obtained the qualification for admission to assessment over the course of the semester, the lecturer will put their registration for assessment into effect. Students who meet all prerequisites will be admitted to assessment in the current or in the subsequent semester. For assessment at a later date, students will have to obtain the qualification for admission to assessment anew.			
Contents						
Types of error, error approximation and propagation, graphs, linear regression, average values and standard deviation, distribution functions, significance tests, writing of lab reports and publications.						
Intended learning outcomes						
In this module, the students acquire subject-specific transferable skills. They have knowledge of practical experimental work, error propagation and the principles of statistics.						
Courses (type, number of weekly contact hours, language — if other than German)						
V + Ü (no information on SWS (weekly contact hours) and course language available)						
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)						
written examination (approx. 120 minutes)
