I

Module title					Abbreviation
Laboratory Course Physics C for Students of Mathematical Physics				Physics	11-P-MPC-152-m01
Module coordinator				Module offered by	
Managing Director of the Institute of Applied Physics			plied Physics	Faculty of Physics and Astronomy	
ECTS Method of grading		Only after succ. compl. of module(s)			
4 (not) successfully completed					
Duration M		Module level	Other prerequisites		
1-2 semester		undergraduate	Students are highly recommended to complete module 11-P-MPB prior to completing module 11-P-MPC.		
Contents					
Physical laws of wave optics, Molecular, Atomic and Nuclear Physics and modern measuring methods using spe- cial computerised devices with examples from optics and Solid-State Physics.					
Intended learning outcomes					
The students are able to build and almost independently operate advanced experimental setups. They are able to record measuring results in a structured manner, even in case of huge data traffic, and to analyse the results by using error propagation and statistics. They are able to evaluate results, to draw conclusions and to present and discuss them in a scientific paper and a presentation.  Courses (type, number of weekly contact hours, language – if other than German)					
P (2)					
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus) practical assignment with talk (approx. 30 minutes) Preparing, performing and evaluating (record of readings or lab report) the experiments will be considered suc-					
cessfully completed if a Testat (exam) is passed. Exactly one experiment that was not successfully completed can be repeated once. After completion of all experiments, talk (with discussion; approx. 30 minutes) to test the candidate's understanding of the physics-related contents of the module. Talks that were not successfully completed can be repeated once. Both components of the assessment have to be successfully completed.					
Allocation of places					
Additional information					
Workload					
120 h					
Teaching cycle					
<b>Referred to in LPO I</b> (examination regulations for teaching-degree programmes)					
Module appears in					
Bachelor' degree (1 major) Mathematical Physics (2015)					
Bachelor' degree (1 major) Mathematical Physics (2016)					
Bachelor' degree (1 major) Mathematical Physics (2020)					
Bachelor' degree (1 major) Mathematical Physics (2024)
