

Module description

Module title					Abbreviation				
Advanced Laboratory Course Nanostructure Technology C 11-P-NC-122-mo1									
Module coordinator				Module offered by					
Managing Director of the Institute of Ap			oplied Physics	Faculty of Physics and Astronomy					
ECTS Method of grading		od of grading	Only after succ. compl. of module(s)						
4	(not)	successfully completed	11-P-PA and 11-P-NB						
Duration		Module level	Other prerequisites						
1 semester		undergraduate							
Contents									
Physical laws of wave optics, Molecular, Atomic and Nuclear Physics and modern measuring methods using special computerised devices with examples from optics and Solid-State Physics.									
Intended learning outcomes									
to record measuring results in a structured manner, even in case of huge data traffic, and to analyse the results by using error propagation and statistics. They are able to evaluate results, to draw conclusions and to present and discuss them in a scientific paper and a presentation.									
Courses (type, number of weekly contact hours, language — if other than German)									
P (no information on SWS (weekly contact hours) and course language available)									
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)									
Preparing, performing and evaluating (lab report) the experiments will be considered successfully completed if a Testat (exam) is passed. Experiments that were not successfully completed can be repeated once. Talk (with discussion; approx. 30 minutes) to test the candidate's understanding of the physics-related contents of the module component. Talks that were not successfully completed can be repeated once. Both components of the assessment have to be successfully completed.									
Allocation of places									
Additional information									
Workload									
Teaching cycle									
Referred to in LPO I (examination regulations for teaching-degree programmes)
