## Module title

### Practical Course B (Physics)

### Abbreviation

11-P-PB-P-092-m01

## Module coordinator

Managing Director of the Institute of Applied Physics

## Module offered by

Faculty of Physics and Astronomy

## ECTS

</tr>
</tbody>
</table>

## Duration

1 semester

## Module level

undergraduate

## Other prerequisites

--

## Contents

Physical laws of optics, vibrations and waves, science of electricity and circuits with electric components.

## Intended learning outcomes

The students know and have mastered physical measuring methods and experimenting techniques. They are able to independently plan and conduct experiments, to cooperate with others, and to document the results in a measuring protocol. They are able to evaluate the measuring results on the basis of error propagation and of the principles of statistics and to draw, present and discuss the conclusions.

## Courses

<tbody>
<tr>
<td>KLP</td>
<td>Klassische Physik (Classical Physics, KLP): P (2 weekly contact hours)</td>
</tr>
<tr>
<td>ELS</td>
<td>Elektrizitätslehre und Schaltungen (Electricity and Circuits, ELS): P (2 weekly contact hours)</td>
</tr>
</tbody>
</table>

## Method of assessment

This module has the following assessment components

1. Lab course in part 1 (KLP): a) Preparing, performing and evaluating the experiments will be considered successfully completed if a Testat (exam) is passed. b) Talk (with discussion) to test the students’ understanding of the physics-related contents of the course (approx. 30 minutes).

2. Lab course in part 2 (ELS): a) Preparing, performing and evaluating the experiments will be considered successfully completed if a Testat (exam) is passed. b) Talk (with discussion) to test the students’ understanding of the physics-related contents of the course (approx. 30 minutes).

Students must register for assessment components 1 and 2 online (registration deadline to be announced). Students will be offered one opportunity to retake element a) and/or element b). To pass an assessment component, they must pass both elements a) and b).

To pass this module, students must pass both assessment component 1 and assessment component 2.

## Allocation of places

--

## Additional information

--

## Referred to in LPO I (examination regulations for teaching-degree programmes)

§ 53 (1) 1. a) Physik Mechanik, Wärmelehre, Elektrizitätslehre, Optik, der speziellen Relativitätstheorie
§ 53 (1) 1. c) Physik physikalische Grundpraktika
§ 77 (1) 1. d) Physik "physikalische Praktika"

## Module appears in

Bachelor' degree (1 major) Physics (2010)
No final examination (2010)
