Module title
Industrial Internship

Abbreviation
11-PFI-072-m01

Module coordinator
Managing Director of the Institute of Applied Physics

Module offered by
Faculty of Physics and Astronomy

ECTS
8

Method of grading
Only after succ. compl. of module(s)

Duration
1 semester

Module level
undergraduate

Other prerequisites
--

Contents
Insights into industrial methods, work processes, goals and production methods. Summary of own experiences and tasks in a report and an oral presentation.

Intended learning outcomes
The students have knowledge and practical experience of using a variety of industrial technologies with relevance to nanostructure technology and are able to summarise their experience in a report and an oral presentation.

Courses
P + S (no information on SWS (weekly contact hours) and course language available)

Method of assessment
placement report / fieldwork report / report on practical training / report on practical course / project report / report on technical course (20 pages)

Allocation of places
--

Additional information
--

Referred to in LPO I
(examination regulations for teaching-degree programmes)

Module appears in
Bachelor’ degree (1 major) Nanostructure Technology (2008)
Bachelor’ degree (1 major) Nanostructure Technology (2007)
