Module title | Project Management in Practice | Abbreviation | 11-PMP-152-m01
--- | --- | --- | ---
Module coordinator | Managing Director of the Institute of Applied Physics | Module offered by | Faculty of Physics and Astronomy
ECTS | 3 | Method of grading | Only after succ. compl. of module(s)
Duration | 1 semester | Module level | graduate
Other prerequisites | -- |
Contents
Technical project management in practice, contents: Definitions, terms, cardinal errors in project management, project schedule, kick-off and stakeholder, teams and resources, milestones and planning, visualisation and reporting, conflicts, success factors, technical and economic controlling, target agreement, balanced score cards, solving exemplary cases
Intended learning outcomes
The students have knowledge of technical project management. They are familiar with different methods and success factors and are able to define, plan and successfully conduct a project.
Courses (type, number of weekly contact hours, language — if other than German)
V (1) + R (1)
Module taught in: German or English
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
written examination (approx. 90 to 120 minutes) or oral examination of one candidate each (approx. 30 minutes) or oral examination in groups (groups of 2, approx. 30 minutes per candidate) or project report (approx. 8 to 10 pages) or presentation/talk (approx. 30 minutes).
If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date at the latest.
Assessment offered: In the semester in which the course is offered and in the subsequent semester
Language of assessment: German and/or English
Allocation of places --
