**Module title**  
Comprehensive Exam in Theoretical Physics / Nanostructure Technology

**Abbreviation**  
11-PREN-072-m01

**Module coordinator**  
chairperson of examination committee

**Module offered by**  
Faculty of Physics and Astronomy

## Contents

The purpose of the examination is to determine whether the candidate understands the connections between fundamental physical and chemical terms and laws and is able to apply the acquired scientific methods.

## Intended learning outcomes

The students know the connections between fundamental physical and chemical terminology and laws and are able to apply the acquired scientific methods.

## Courses

A (no information on SWS (weekly contact hours) and course language available)

## Method of assessment

oral examination of one candidate each (approx. 30 minutes)

## Allocation of places

--

## Additional information

--

## Referred to in LPO I

(examination regulations for teaching-degree programmes)

--

## Module appears in

Bachelor’ degree (1 major) Nanostructure Technology (2008)
Bachelor’ degree (1 major) Nanostructure Technology (2007)
