### Module title
Comprehensive Exam in Theoretical Physics / Nanostructure Technology

### Abbreviation
11-PREN-072-m01

### Module coordinator
chairperson of examination committee

### Module offered by
Faculty of Physics and Astronomy

### Content
The purpose of the examination is to determine whether the candidate understands the connections between fundamental physical and chemical terms and laws and is able to apply the acquired scientific methods.

### Intended learning outcomes
The students know the connections between fundamental physical and chemical terminology and laws and are able to apply the acquired scientific methods.

### Courses
A (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
oral examination of one candidate each (approx. 30 minutes)

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)

### Module appears in
Bachelor’ degree (1 major) Nanostructure Technology (2008)
Bachelor’ degree (1 major) Nanostructure Technology (2007)
