### Duration
1 semester

### Module level
Undergraduate

### Other prerequisites
--

### Contents
The purpose of the examination is to determine whether the candidate has profound methodological knowledge of engineering and is able to apply the acquired scientific methods.

### Intended learning outcomes
The students have founded methodological knowledge in engineering and are able to apply the acquired scientific methods.

### Courses
A (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
Oral examination of one candidate each (approx. 30 minutes)

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(Examination regulations for teaching-degree programmes)

### Module appears in
- Bachelor’ degree (1 major) Nanostructure Technology (2008)
- Bachelor’ degree (1 major) Nanostructure Technology (2007)
