### Contents

The purpose of the examination is to determine whether the candidate understands basic contexts of Theoretical Physics and is able to apply the acquired scientific methods.

### Intended learning outcomes

The students have gained an overview of the basic contexts of Theoretical Physics and are able to apply the acquired scientific methods.

### Courses

A (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

oral examination of one candidate each (approx. 30 minutes)

### Module appears in

- Bachelor' degree (1 major) Physics (2007)
- Bachelor' degree (1 major) Physics (2009)
- Bachelor' degree (1 major) Physics (2008)
