| Thermodynamics and Economics | | | | | 11-TDO-092-m01 |
| Module coordinator | | | | Module offered by | |
| Managing Director of the Institute of Theoretical Physics and Astrophysics | | | | Faculty of Physics and Astronomy | |
| ECTS | <u> </u> | thod of grading Only after succ. compl. of module(s) | | | |
| 6 | | rical grade | | | |
| Duratio | Duration Module level Other prerequisites | | | | |
| 1 semester | | graduate | sessment. The lectu at the beginning of sidered a declaration dents have obtaine the course of the se sessment into effect ted to assessment i sessment at a later | Certain prerequisites must be met to qualify for admission to as- sessment. The lecturer will inform students about the respective details at the beginning of the course. Registration for the course will be con- sidered a declaration of will to seek admission to assessment. If stu- dents have obtained the qualification for admission to assessment over the course of the semester, the lecturer will put their registration for as- sessment into effect. Students who meet all prerequisites will be admit- ted to assessment in the current or in the subsequent semester. For as- sessment at a later date, students will have to obtain the qualification for admission to assessment anew. | |
