

Module title		Abbreviation
Theoretical Solid State Physics 2		11-TFK2-Int-201-m01
Module coordinator		Module offered by
Managing Director of the Institute of Theoretical Physics and Astrophysics		Faculty of Physics and Astronomy
ECTS	Method of grading	Only after succ. compl. of module(s)
8	numerical grade	--
Duration	Module level	Other prerequisites
	graduate	--
Contents		
<p>A possible continuation of „11-TFK“ is the following syllabus:</p> <p>5. Advanced topics of the theory of superconductivity (Bogoliubov-de Gennes equations, effective field theory, Anderson-Higgs description of the Meissner effect)</p> <p>6. Unconventional superconductors (e.G. copper-oxide high-T_c superconductors)</p> <p>7. Green's function methods and Feynman diagrammatic technique</p> <p>8. The Kondo Effect (Anderson's "poor mans scaling", renormalization group)</p>		
Intended learning outcomes		
Advanced knowledge of the topics listed above. In-depth understanding of both the concepts involved and ability to apply the methods listed. This provides a thorough working knowledge of a large number of topics treated in the standard textbooks on theoretical solid state physics.		
Courses (type, number of weekly contact hours, language — if other than German)		
V (2) + R (2) Module taught in: English		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
<p>a) written examination (approx. 90 to 120 minutes) or b) oral examination of one candidate each (approx. 30 minutes) or c) oral examination in groups (groups of 2, approx. 30 minutes per candidate) or d) project report (approx. 8 to 10 pages) or e) presentation/talk (approx. 30 minutes).</p> <p>If a written examination was chosen as method of assessment, this may be changed and assessment may instead take the form of an oral examination of one candidate each or an oral examination in groups. If the method of assessment is changed, the lecturer must inform students about this by four weeks prior to the original examination date at the latest.</p> <p>Language of assessment: English</p> <p>Assessment offered: In the semester in which the course is offered and in the subsequent semester</p>		
Allocation of places
