Module title	Abbreviation
Business Intelligence Fundamentals	12-BIF-202-m01

Module coordinator		Module offered by
holder of the Chair of Information Systems Engineering		Faculty of Management and Economics

ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--

Duration	Module level	Other prerequisites
1 semester	undergraduate	--

Contents

Technologies and methods of "Business Intelligence" are aimed at supporting managerial decision-making processes by analyzing and presenting large amounts of data. The module provides an overview of the corresponding analytical information systems, their technical architecture and areas of application. In the practical exercises, the concepts taught are practically demonstrated and applied by the example of a state-of-the-art BI software suite.

Intended learning outcomes

- Understand the technological foundations of data warehouses and BI tools.

- Analyse and design conceptual models for analytical information systems.

- Apply real-world BI software products to analyse large structured data sets

Courses (type, number of weekly contact hours, language — if other than German)

V (2) + Ü (2)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (approx. 60 minutes) or
b) term paper (approx. 15 pages)
Language of assessment: German and/or English
