5	numerical grade	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	undergraduate	--
<b>Contents</b>		
<p>Outline of syllabus:</p> <ol style="list-style-type: none"> <li>1. Pricing of information goods <ul style="list-style-type: none"> <li>- market segmentation methods</li> <li>- digital rights management and piracy</li> <li>- alternative monetisation strategies</li> </ul> </li> <li>2. Network effects <ul style="list-style-type: none"> <li>- consumer demand in markets with network effects, rational expectations</li> <li>- monopoly pricing</li> <li>- competition in markets with network effects</li> <li>- compatibility and multi-homing: dynamic competition</li> </ul> </li> <li>3. Competition in markets with switching costs</li> <li>4. Two (multi)-sided markets and platforms <ul style="list-style-type: none"> <li>- monopoly pricing in platform markets</li> <li>- competition in platform markets: non-price strategies</li> </ul> </li> </ol> <p>The course will be taught in English.</p>		
<b>Intended learning outcomes</b>		
<p>After successful completion of this class, the students should be familiar with issues arising in many of the increasingly important hi-tech industries. They will be able to comment on emerging selling mechanisms for books, music and video. They will be able to explain the underlying logic for observed pricing patterns for software products, social media sites and the services found in the so called sharing economy. They will not only be able to understand observed behavior in information goods markets, industries which exhibit network effects and platform markets but will be able argue for new strategies in light of the specific features a market/product may exhibit.</p>		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)		
V + Ü (no information on SWS (weekly contact hours) and course language available)		
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
a) written examination (approx. 60 minutes) or b) written examination (approx. 120 minutes) or c) term paper (approx. 10 pages) and presentation (approx. 15 minutes), weighted 2:1
