

Module title		Abbreviation
Data Modelling		12-DM-F-o82-m01
Module coordinator		Module offered by
holder of the Junior Professorship of Information Management		Faculty of Business Management and Economics
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
<p>The module covers the fundamentals and concepts of data modelling as well as languages for creating and querying data bases.</p> <p>Main topics:</p> <ul style="list-style-type: none"> - Fundamentals and application of semantic data modelling - Fundamentals and application of the relational data model - Fundamentals and application of data query languages - Further aspects of data modelling 		
Intended learning outcomes		
<p>Upon completion of the module students are able</p> <p>(i) to design good conceptual and logical data models;</p> <p>(ii) to transform conceptual data models into physical data schemas;</p> <p>(iii) to create and update databases and tables;</p> <p>(iv) to formulate complex database queries;</p> <p>(v) to design different applications with databases.</p>		
Courses (type, number of weekly contact hours, language – if other than German)		
V + Ü (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
written examination (approx. 60 minutes)		
Allocation of places		
<p>Number of places: 50. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Bachelor's students of Wirtschaftsinformatik (Business Information Systems) will be given preferential consideration. (2) The remaining places will be allocated to students of other subjects. (3) When places are allocated in accordance with (1) and the number of applications exceeds the number of available places, places will be allocated among applicants from within this group according to the respective FSB (subject-specific provisions) regarding Section 7 Subsection 4 ASPO (general academic and examination regulations). (4) When places are allocated in accordance with (2) and the number of applications exceeds the number of available places, places will be allocated in a standardised procedure among all applicants irrespective of their subjects according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in the respective degree subject; among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25% of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25% of places): allocation by lot. (5) Within the groups according to (1) and (2), applicants who already have successfully completed at least one module component of the respective module will be given preferential consideration. (6) Places on all courses of the module component with a restricted number of places will be allocated in the same procedure. (7) A waiting list will be maintained and places re-allocated as they become available.</p>
