Contents		
In this course, students will acquire the technical, organisational and social skills necessary for a real e-business. The principal distinguishing feature of this course is its high practical relevance. The project work - evolving from the conceptual design to status presentations and final report - will be completed in small groups.		
Intended learning outcomes		
After completion of the module students are able (i) to understand challenges of real e-business companies; (ii) to apply the acquired knowledge to solve a specific, real problem; (iii) to present developed results; (iv) to collect experience in the field of search engine optimization.
