holder of the Chair of Information Systems Engineering		Faculty of Business Management and Economics
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
<p>E-business is a comprehensive, digital processing of business transactions between private and public enterprises as well as institutions and their clients on global public and private networks such as the internet. Precisely because euphoria for e-business has waned considerably in recent years, a lot of emphasis is now being placed on introducing such solutions in a user-oriented way. This lecture will first discuss the supporting economic theories and will then describe and analyse individual solutions such as e-procurement, e-shop, e-marketplace and e-community in detail.</p>		
Intended learning outcomes		
<p>The module provides students with knowledge about:</p> <ul style="list-style-type: none"> (i) E-Procurement (ii) E-Shop (iii) E-Marketplace (iv) E-Community 		
Courses (type, number of weekly contact hours, language — if other than German)		
V (2) + T (2)
