## Duration

1 semester

## Module level

graduate

---

## Contents

This module discusses relevant principles, concepts and applications of business information processing and its impact on organisational and process structures in today’s business world.

## Intended learning outcomes

The expertise gained from other modules related to business management issues can be interpreted and classified in a certain way by participating in this module. For decisions in regards to human resources planning, investment, and a company's strategy, the students will get to know all the relevant concepts and interdependencies, which come with taking information processing into account as the so called “fourth” factor of production.

## Courses

V + D (no information on SWS (weekly contact hours) and course language available)

## Method of assessment

- written examination (approx. 60 minutes)
- term paper (approx. 15 pages)

## Allocation of places

--

## Additional information

--
