Contents		
This module discusses relevant principles, concepts and applications of business information processing and its impact on organisational and process structures in today's business world.		
Intended learning outcomes		
The expertise gained from other modules related to business management issues can be interpreted and classified in a certain way by participating in this module. For decisions in regards to human resources planning, investment, and a company's strategy, the students will get to know all the relevant concepts and interdependencies, which come with taking information processing into account as the so called "fourth" factor of production.
