<p>The modul is located in the nexus of business cycles, corporate finance and asset markets. Being located at the intersection between economics and finance the modul addresses the interaction between business cycles, corporate finance and asset markets. Concretely students can work on subjects like „what is the impact of interest rate changes by the central bank on the housing market“, „how do asset markets and household consumption interact“ and „what is the interrelationship bewtween financing conditions and the business cycle“. From a methodological point of view the course targets to built on existing methological toolkits aquired during the bachelor studies. Students are guided to deepen their understanding on those toolkits to analyze data and to generate results.</p>		
<b>Intended learning outcomes</b>		
<p>The modul equips students with the necessary tools to analyze data to generate results on topics of interest. Besides students need to present their findings and communicate their results to other studends.</p>
