

Module title		Abbreviation
DSGE Modelling		12-M-DMM-111-m01
Module coordinator		Module offered by
holder of the Chair of Monetary Policy and International Economics		Faculty of Business Management and Economics
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
<p>The course offers an introduction to "Dynamic Stochastic General Equilibrium Modelling" (DSGE). These models are designed to describe the business cycle at the macro level. In a first step, we analyse the behaviour of a representative household. In particular, we describe how consumption, asset allocation and labour supply plans are formulated. In a second step, we focus on the firm sector and address how firms solve for optimal production plans. In a third step, we explain what role the central bank plays in stabilising the business cycle. Thereby, we show how changes in interest rates interact with optimal decisions taken by households and firms. We also discuss hot topics such as CAPM models and monetary policy in the euro area.</p>		
Intended learning outcomes		
<p>The course offers analytical tools designed to solve DSGE models. These analytical skills encompass:</p> <ul style="list-style-type: none"> -- Solving of intertemporal optimization problems (e.g., consumption Euler-equations). -- Linearization methods (e.g., Taylor-expansions). -- Solving linear difference expectations by minimum state variable techniques (MSV-solution). -- Basic time series concepts such as impulse response functions, variance decompositions. -- Basic insights in MATLAB/ Dynare programming: specifying, solving and estimating DSGE models. 		
Courses (type, number of weekly contact hours, language – if other than German)		
V + Ü (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
a) written examination (approx. 60 minutes) or b) term paper (approx. 15 pages)		
Allocation of places
