Contents		
<p>Content: In small project teams of 4 to 10 members, students will spend several months actively working on a specific and realistic problem with practical relevance. They will progress through several project stages including as-is analysis, to-be conception and implementation of an IS solution. The project teams will be required to work independently and will only receive advice and minor support from research assistants.</p> <p>Reading: will vary according to topic</p>		
Intended learning outcomes		
<p>After completing the course "Projektseminar", students will be able to</p> <ol style="list-style-type: none"> 1. analyze business tasks and requirements and generate fitting IS solutions; 2. apply project management methods; 3. internalize stress, time and conflict management by means of practical teamwork.
