|--|-------------------|--------------------------------------|
| Seminar: Quantitative Economic Research  |                   | 12-QWF-FS-o82-mo1                    |
| Module coordinator   |                   | Module offered by                    |
| holder of the Chair of Econometrics  |                   | Faculty of Management and Economics  |
| ECTS   | Method of grading | Only after succ. compl. of module(s) |
| 5  | numerical grade   | --                                   |
| Duration   | Module level      | Other prerequisites                  |
| 1 semester   | undergraduate     | --                                   |
| <b>Contents</b>  |                   |                                      |
| This module will take the form of a seminar. Participants will independently work on a subdomain of applied quantitative economics, either theoretically or applying the techniques they have acquired in an empirical study.  |                   |                                      |
| <b>Intended learning outcomes</b>  |                   |                                      |
| Students acquire the ability to work independently on a given topic in applied quantitative economics, write a summary, and present it to and discuss it with other seminar participants.  |                   |                                      |
| <b>Courses</b> (type, number of weekly contact hours, language — if other than German)   |                   |                                      |
| S (no information on SWS (weekly contact hours) and course language available)   |                   |                                      |
| <b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)   |                   |                                      |
| term paper (approx. 15 pages) and presentation (approx. 25 minutes), weighted 2:1  |                   |                                      |
| <b>Allocation of places</b>  |                   |                                      |
| Number of places: 15. Should the number of applications exceed the number of available places, places will be allocated in a standardised procedure among all applicants irrespective of their subjects according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in the respective degree subject; among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25% of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25% of places): allocation by lot. In this procedure, applicants who already have successfully completed at least one module component of the respective module will be given preferential consideration. Places on all courses of the module component with a restricted number of places will be allocated in the same procedure. A waiting list will be maintained and places re-allocated as they become available. |                   |                                      |
| <b>Additional information</b>  |                   |                                      |
| --   |                   |                                      |
| <b>Workload</b>  |                   |                                      |
| --   |                   |                                      |
| <b>Teaching cycle</b>  |                   |                                      |
