Contents		
We develop and implement marketing measures to draw attention to the range of services of the Career Service and to increase its popularity amongst students and teachers. In addition, we cooperate with the students to determine their current needs in order to optimise the work of the Career Service. The work placement includes weekly meetings, an analysis of the efficiency of the Career Service so far, the development of new and original target-group-specific measures and the independent implementation of a measure within the team of trainees, using different forms of organisation and (online) media.		
Intended learning outcomes		
The trainees become acquainted with a variety of marketing measures and their practical application. They learn what to keep in mind when organising events, developing ideas and implementing unusual marketing measures. They are able to develop and apply various methods of editorial work for online marketing (e.g. websites, blogs, Facebook campaigns, live posts). Furthermore, they improve their communication and presentation skills by making personal appearances on different occasions and in front of different groups. The trainees acquire broad competencies in team and project work which also include the evaluation of campaigns and measures on the basis of a documentation which serves as a foundation for the work of the next group of trainees.
