<b>Contents</b>		
<p>This module will equip students with a knowledge of digitisation hardware and software and will provide an introduction to problems associated with image data generation. It will also discuss the metadata enrichment of image data, in particular for the creation of full-text resources using OCR output, catalogue records and archiving.</p>		
<b>Intended learning outcomes</b>		
<p>Students have gained an overview of digitisation technologies and are able to evaluate the quality of image and metadata with regard to the need for post-processing. They know what hardware, software, staff resources, and organisational expertise are required for a digitisation project and are aware of the costs one will incur throughout such a project.</p>
