Contents		
This module includes a practical component at the digitisation centre of the university library. This will discuss technical, ergonomic, and conservation-related as well as legal and copyright aspects of the modelling of complex workflows and will compare the possibilities and limitations of different scanning systems.		
Intended learning outcomes		
Students have developed a differentiated understanding of the publishing and information practices in their discipline and are familiar with the possibilities offered by electronic publishing. They are able to locate information in a broad range of subject-specific and interdisciplinary electronic resources and have developed an understanding of the legal framework for good academic practice.
